Hiring, Retaining + Upskilling Our Talent!

What will our Job descriptions look like in 2020? 2025?

“I” Shaped

“T” Shaped

I-shaped ECE Talent

Depth of Subject Expertise

Encouraging Depth of Skills that...

- Are in demand
- Looks great on a resume
- Based on specific domain
- Shows discipline + commitment

T-shaped ECE Talent

Broad set of Skill Sets & Mindsets

Depth of Subject Expertise

Encouraging Breadth of Skills that...

- ❑ Appeal to organizations hiring *learners*
- ❑ Embraces curiosity amidst uncertainty
- ❑ Shows desire to integrate solutions

-
- Service/Experience Design
 - Data Science
 - Design Thinking
 - Visual Communication
 - Ethnography
 - New Digital Literacies
(*e.g. Working with A.I.*)
 - Social Justice
 - Leadership
 - Values / Ethics
 - Storytelling
 - Entrepreneurship
 - Behavioral Economics
 - Psychology

In the News

UT-Austin students won a startup contest for *Sayzee™* - an *Alexa Skill* that helps parents and children increase vocabulary and address *word gap* issues.

Context of the *Creepy Line*

Inevitability of Dealing with the *Creepy vs Compelling Line* at the..

Early Childhood Experiences

How do we...

- Balance privacy + personalization of differentiation***
- Communicate value and benefits of data-driven innovation***
- Maintain human-ness side of the relationships and ECE experiences***

Future of the *Creepy vs Compelling Line*

Our goal is to give libraries the equivalent of Google Analytics for the library building.

Jason Griffey

Should we develop shared tools & frameworks for sensors used in *learning environment analytics*.

Future of the *Creepy vs Compelling Line*

 fitbit

Should we provide wearable devices to show progress with physical activity and connections to learning outcomes?

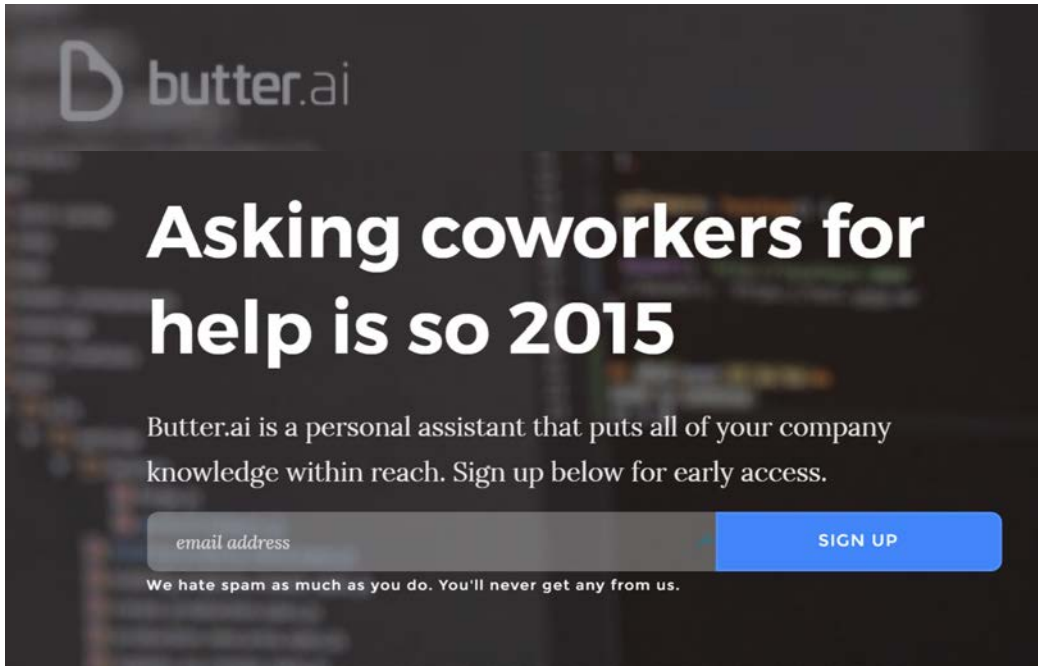

Future of the *Creepy vs Compelling Line*

Should educators and children have wearables to reveal interaction dynamics?

Future of the *Creepy vs Compelling Line*

Specialized digital assistants and bots expected to generate over \$600 billion in revenue by 2020

The image shows a dark-themed sign-up page for Butter.ai. At the top left is the Butter.ai logo. The main heading reads "Asking coworkers for help is so 2015". Below this, a sub-headline states: "Butter.ai is a personal assistant that puts all of your company knowledge within reach. Sign up below for early access." There is a sign-up form with a text input field labeled "email address" and a blue "SIGN UP" button. At the bottom, a small line of text says: "We hate spam as much as you do. You'll never get any from us."

Should we develop automated 'chat bot' services to support educators, families and partners?

Assumption:

By 2020, our ECE community will confront
Creepy vs Compelling Lines associated with:

- Shifting social norms and new *gaps*
- Experience data* and analytics
- Learning environment support systems
- Non-traditional partnerships (competition)
- Natural language technologies (AI Assistants)

Early Days of Performance Analytics + Performance Support
Where we learn vs What we apply at work?

Our job is not to build training. It is to improve performance

Classroom

Real World

The Abstract and *Fuzzy* Transition into Performance Support

Training Culture

- Put *inside* person
- Instructor-focused
- Event-based (Class)
- Centralized (Formal)
- Linear (Sequential)

Performance Review

- Purpose: Summative Assessment
- Associated with Weaknesses

Learning Culture

- *Grows out* of personal effort
- Learner-focused
- Continual / On-demand (*Chunks*)
- Decentralized (Hybrid)
- Non-linear (Contextual)

Performance Support

- Purpose: Formative (Support Performance)
- Growth-focused

Emerging L&D (Performance Support) Strategies

Micro Content

7 minute modules

vs

Semester of School /
Two hour Training Sessions

Gamification (Behavioral)

Gamification?

Using game elements to drive behavior, engagement:
communicate, feedback and coach to performance

Emerging L&D (Performance Support) Strategies

Early Days of Performance Analytics

What if we could make connections between training to performance?

xAPI Performance Analytics driving Engagement

“I did this...” Statements

- ❑ Simone **watched** a Youtube video on teaching kids about unique shapes
- ❑ Simone **completed** a MOOC class on Thinking in Dimensions
- ❑ Simone **followed** the MOOC class teacher on Twitter
- ❑ Simone **funded** a Kickstarter project on 3D Writing Pen
- ❑ Simone **attended** workshop on origami for parents and kids
- ❑ Simone **wrote** a blog post on 3D tools for kids
- ❑ Simone **designed** kid-focused worksheets to use with 3D Doodler
- ❑ Simone **created** a Youtube video on Creating Weird Shapes for Kids
- ❑ Simone **submitted** her concept to the Intel STEM Contest
- ❑ Simone **won** Best New Idea for Intel STEM Contest

Creating conditions for Self-directed Learning & Performance Support

Experience Streams

<Actor, Verb, Object>

"I did this"

Learning Record Store (LRS)

Individual Control over

Access to Learning Data

This feels kind of creepy... and a little compelling

Imagining the Shift to Performance Support

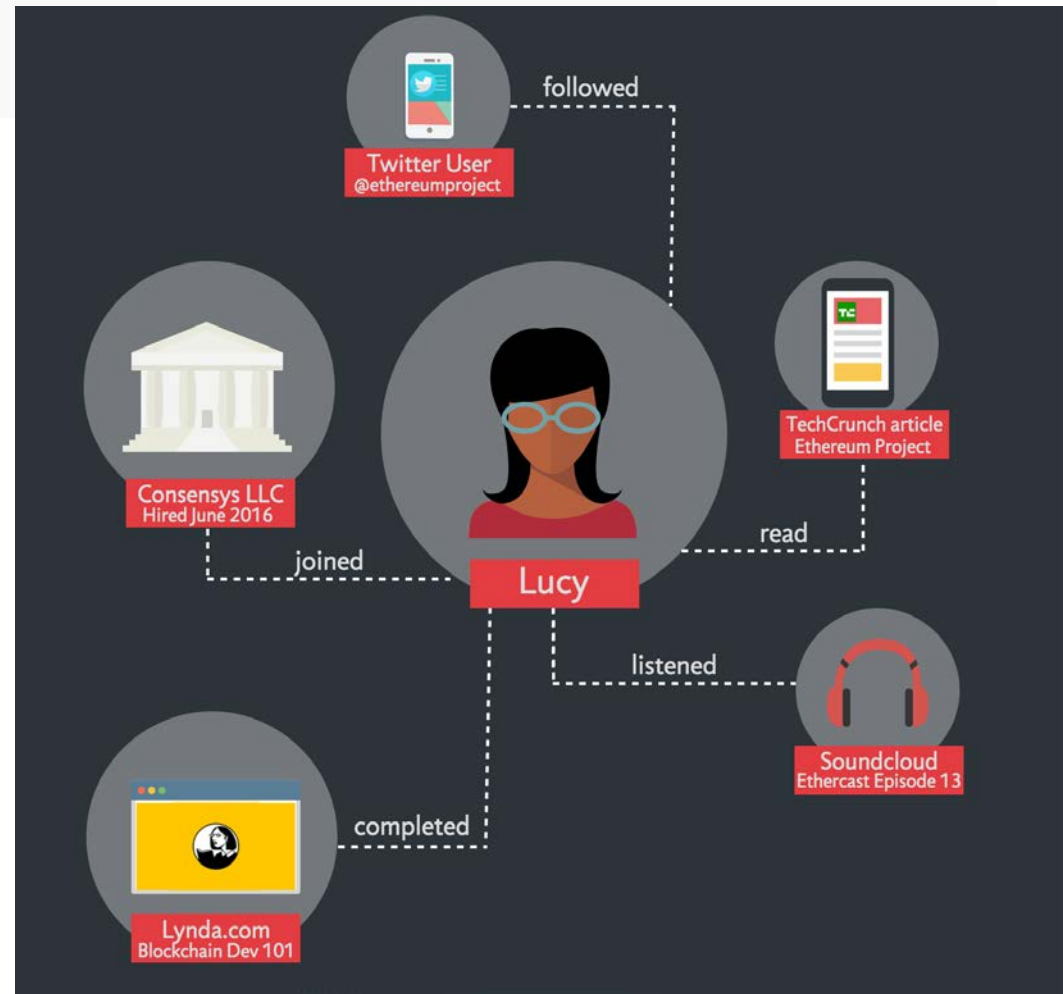

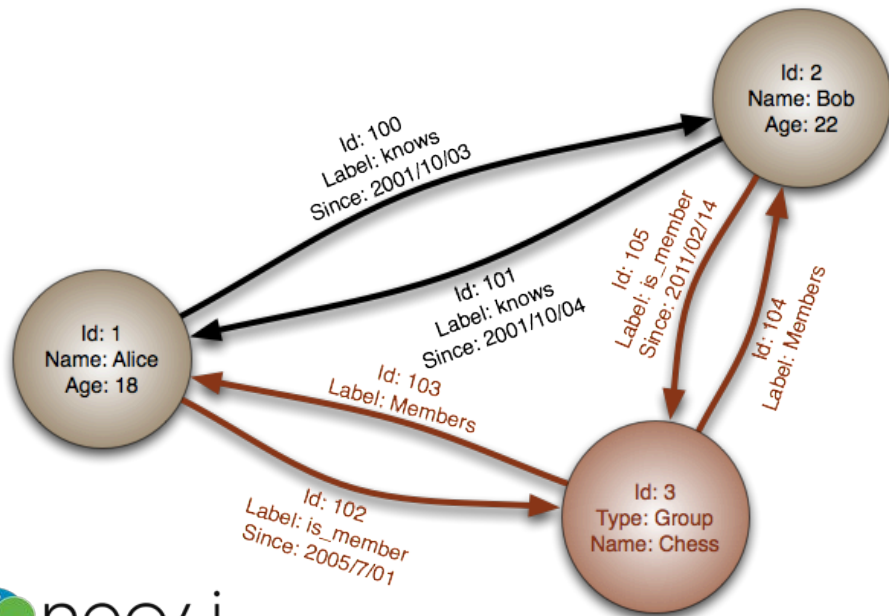

- Create a culture of continual learning
- Anticipate team capacity for addressing novel or specific opportunities or challenges
- Reveal just-in-time opportunities to provide Performance Support
- Make connections between training + performance support to teaching/learning outcomes

Social Graph to Experience Graph

Why LinkedIn should kill the résumé and replace it with the experience graph

Posted Aug 14, 2016 by [Garry Golden \(@garrygolden\)](#)

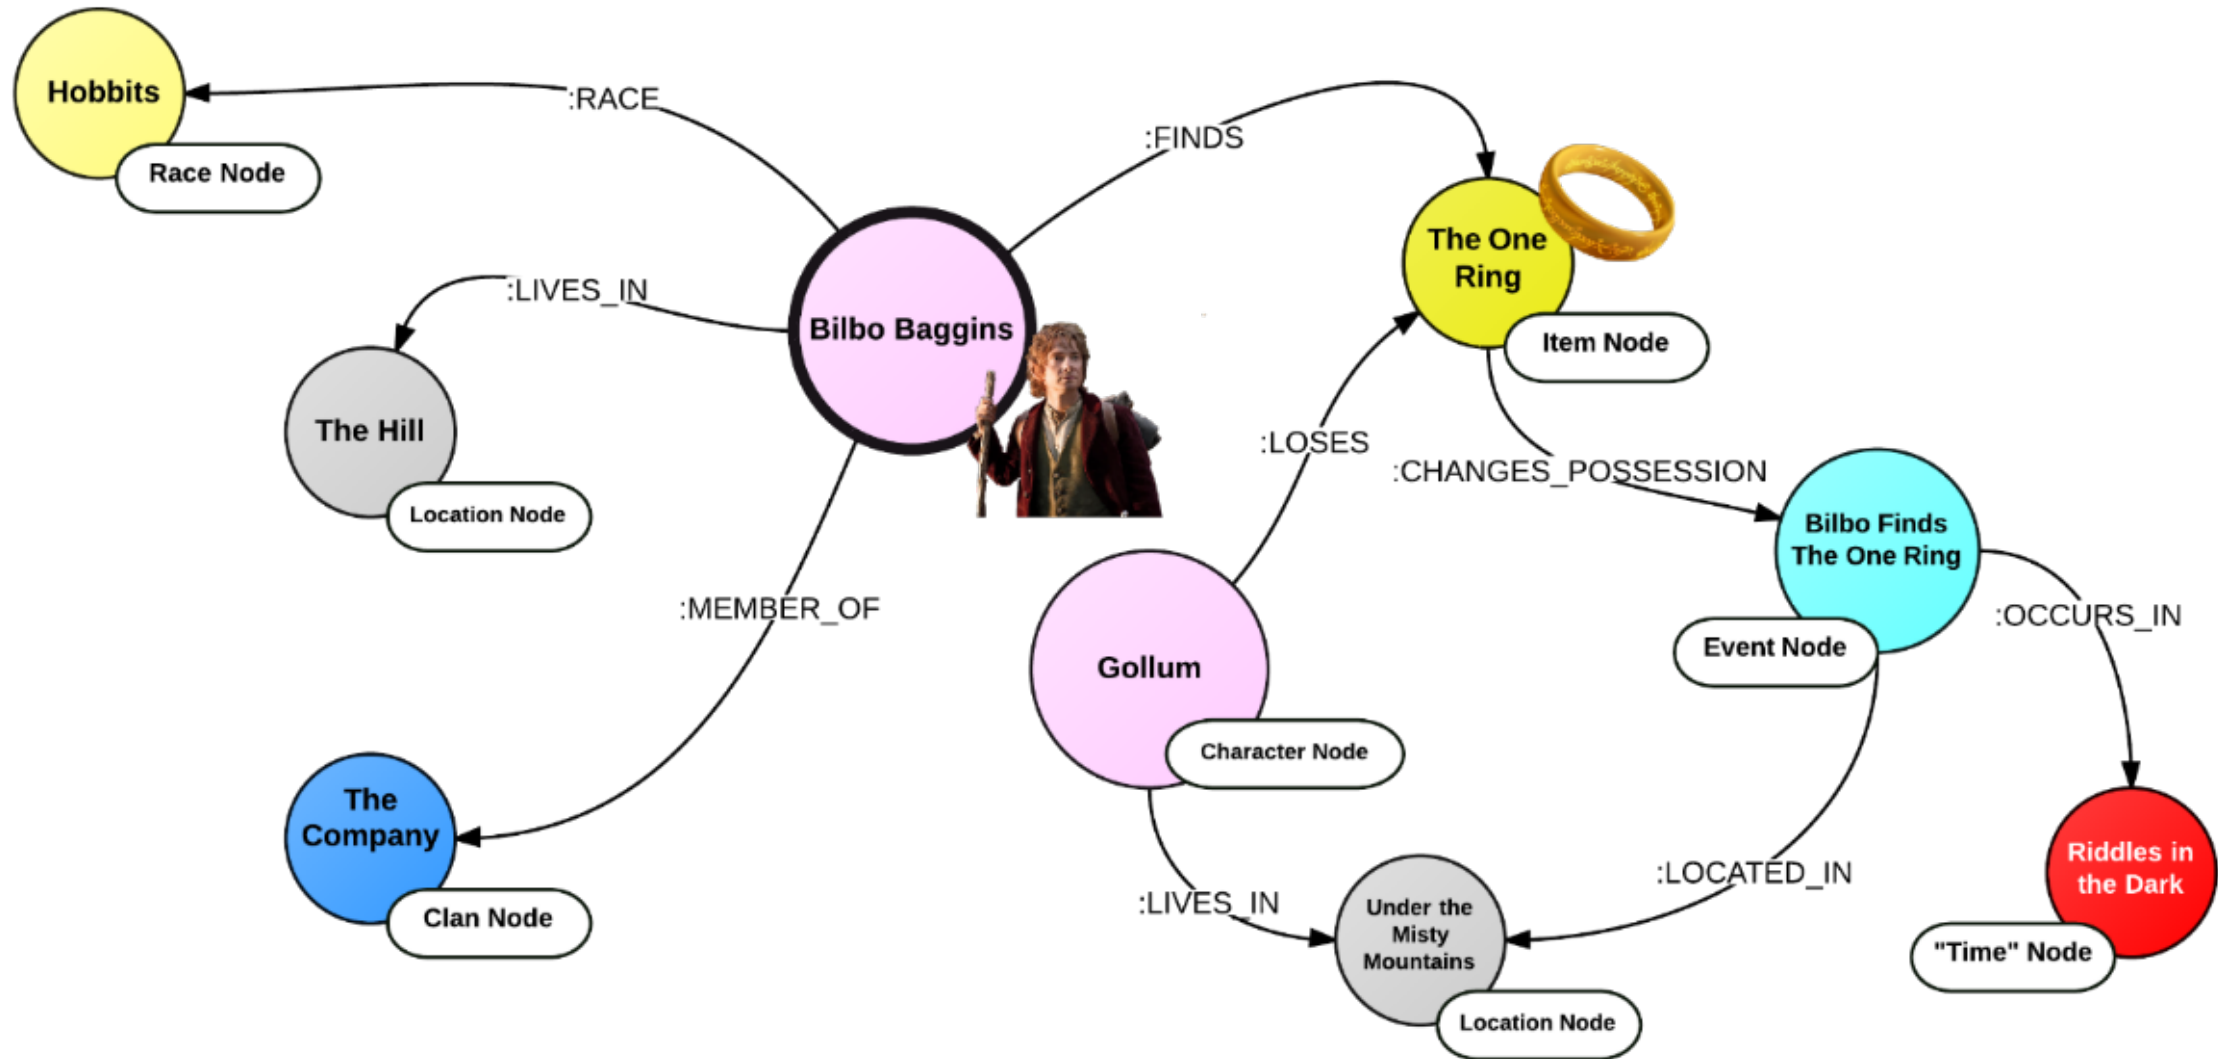

Graph Database = Understanding Relationships + Connections

Yellow = people
Blue = things they do

Graph Thinking Approach to Understanding Pathways & Journeys

Connected Data is Your Most Valuable Asset

Getting Started with Graph Thinking:

- ❑ **Assessment Phase:**
Opportunities + Gaps; Tool Roadmaps
- ❑ **Implementation Issues**
Data Capture + Privacy Issues
- ❑ **Piloting + Projects**
Showing Experience Pathways
- ❑ **Foundation for the Future:**
Graph Analytics as Foundation for A.I.

Creepy vs Compelling Lines of Sharing Stories of Our Children

Hi Ann and Garry,

I wanted to let you know how wonderful Lucas did during his mystery bag share! After helping to show everyone his violin he went on to play it for the whole class. He was quite confident and it was such a special moment - I've attached a picture so that you can both see.

Thanks so much!

Kaye

Garry Golden @garrygolden · 23 Sep 2016

Putting the fossils to good use.. matching game for my son's daycare class.. favorites turtle poop and dino teeth

How do we empower *messengers* who tell the story of what ECE brings to society?

- ❑ Culture of Evangelists
Invest in your messengers
- ❑ Design stories to be portable, open and ready to be interpreted + shared
- ❑ Become more comfortable with risks and rewards of less control

Mark Ervin shared Lunkerville's video.

Co-Evolution of Funding & Impact

Social Impact Investing

Crowd Funding

Social Entrepreneurs

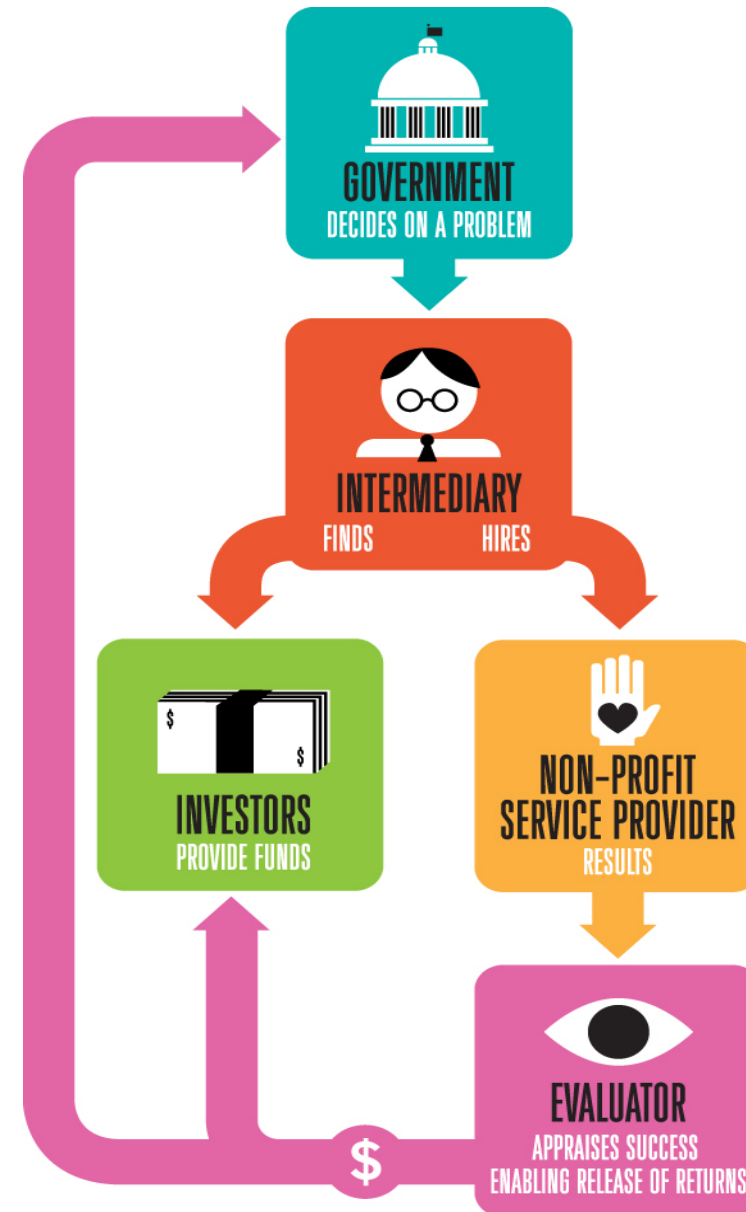

How do we navigate uncertainties of Social Impact Investing?

Many names, shared vision...

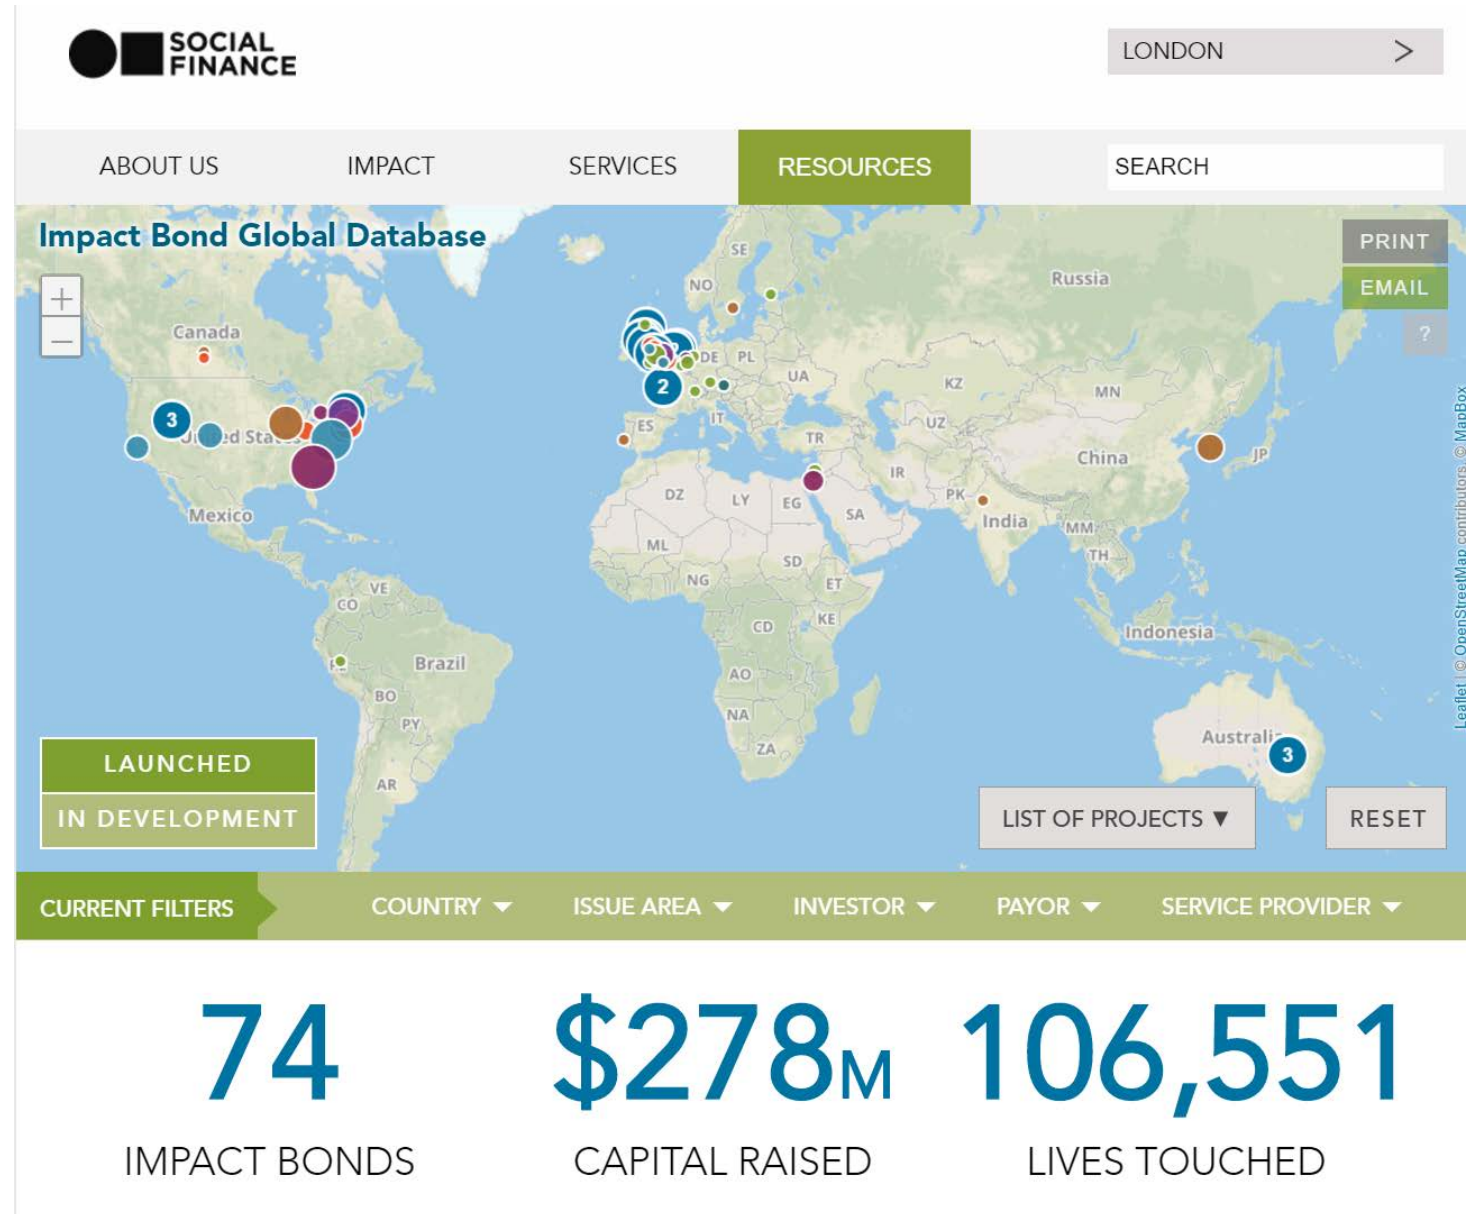

- Social Impact Bonds (SIBs)
- Social Benefit Bond
- Pay for success (PFS)
- Results-based Financing
Results-driven Contracting
- Human Capital
Performance Bond (HUCAP)

How might ECE fit into...

- ☐ Measurable
 - + Achievable Social Objectives
- ☐ Pathway to public sector
 - cost savings + private sector returns
- ☐ Legal Contacts
- ☐ Investor-friendly Terms

Early Days of Social Impact Investing

Start up the Learning (Experience) Curve

Imagine Applications

- Insurance for Playgrounds
- Loans for Parents (Families)
Loans for Educators (Training)
- Food or Healthcare budgets
